

PEC CORE COMPLIANCE

TRAINING THAT MAKES YOUR EMPLOYEES SAFER, WHILE SAVING YOUR COMPANY TIME AND MONEY.

PEC Core Compliance covers 40+ health, safety, and environmental (HSE) topics most requested in the Oil & Gas Industry. Accredited by both SafeLandUSA and SafeGulf, PEC Core Compliance also has a yearly refresher to keep your employees' certifications up to date.

In a comprehensive 3 day instructor led format, Core Compliance meets full training in 29 HSE topics while meeting awareness level in an additional 15 topics. Upon completion of the course, all students are issued a PEC ID card with their name, company name, picture, barcode, and completed courses. All students are automatically entered into PEC's Training Tracker where your company's clients and auditors can view proof of employee training (only if your company allows access).

With hundreds of authorized PEC trainers nationwide and a train-the-trainer available for companies with in-house trainers, PEC makes it easy for your company to obtain Core Compliance. Ensure your employees are trained in the most important HSE topics required by operators and regulatory agencies in the most complete and cost effective program through PEC Core Compliance.
